Oltre alla versione base con gamba a sezione triangolare, Hype permette una personalizzazione tramite cover estetica, inserita nella parte interna della gamba: si crea in questo modo una elegante gamba a sezione pentagonale. La cover è realizzata in profilato di alluminio nelle medesime finiture della struttura, oppure in versione lucida nei colori A3BD, A3NE, A3TT, A3BZ.

In addition to the basic version with a triangular section leg, Hype allows for customization through an aesthetic cover, inserted in the inner part of the leg: in this way an elegant pentagonal section leg is created. The cover is made of aluminum profile in the same finishes as the structure, or in a glossy version in the colors A3BD, A3NE, A3TT, A3BZ.

En plus de la version de base avec structure à section triangulaire, Hype permet une personnalisation grâce à la cover esthétique, insérée dans la partie intérieure de la structure: on crée ainsi une élégante structure à section pentagonale. La cover est réalisée en profilé d'aluminium dans les mêmes finitions de la structure, ou en version polie dans les couleurs A3BD, A3NE, A3TT, A3BZ.

Per una postazione ancora più preziosa, Hype prevede la personalizzazione della struttura attraverso l'inserimento della cover in legno massello. Un dettaglio che dona calore e prestigio. La gamma delle finiture comprende il legno naturale W1LN, oppure quattro essenze in abbinamento ai nuovi impiallacciati dei piani lavoro.

For an even more precious workstation, Hype provides for the customization of the structure by inserting the solid wood cover. A detail that gives warmth and prestige. The range of finishes includes natural wood W1LN, or four essences combined with the new veneered worktops.

Pour un poste de travail encore plus précieux, Hype prévoit la personnalisation de la structure à travers l'insertion de la cover en bois massif. Un détail qui donne chaleur et prestige. La gamme de finitions comprend le bois naturel W1LN, ou quatre essences en combinaison avec les nouveaux placages des plateaux.
