WHY CHOOSE A SIT/STAND DESK?

Sit/stand desks have been around for many years.

Since then, their popularity have increased and the demand worldwide for sit/stand desks is growing.

The physical benefits of having an adjustable table are very clear. They help your overall well-being and strengthen your posture. Not to mention all the added benefits you will get from good blood circulation.

Throughout the COVID-19 Pandemic more and more people started working from home, and this trend is likely to stay.

Using a desk at home for a large part of the day is just as hard on your body as it is in an office

But your home is not an office! And it should not look like one either.

You home is where you live.

The furniture you have reflects this and must fit a certain style.

To offer both a stylish and functional option, we have developed a series of desks you can use at home. Whether it is for working, homework or hobbies, our desks offer the same adjustability as the office desks we have been building for over 20 years but wrapped in a beautiful design.

The Cabinet Desk

Can you see the sit/stand desk in this picture?

Imagine having a sit/stand desk in your home when you need it.

The Cabinet Desk offers a fully height adjustable desk solution when needed and when not in use the cabinet offers a clean Scandinavian design will fit elegantly into any living situation.

The Cabinet Desk offers a fully adjustable desk solution disguised as a beautiful and minimalistic cabinet.

The Cabinet Desk

Measurements: H 67cm W 115cm D 42cm

Materials: Water based UV Lacquer MDF construction and steel frame

Height travel: 67cm - 130cm

Colors: White & Clay

Hide your office when you are not there

Keep your home office materials tucked away in the cabinet when you are not working.

Our Heritage

At ConSet Home we are proud to say that we are based in Skjern on the west coast of Denmark.

This area is surrounded by the infinite and powerful North Sea, beautiful heaths, rolling dunes, pine woods and flat fields

Out here far from everything the contrasts meet. The beautiful yet subtle details can change quickly when the western storms rage and set everything from the water to the trees in motion.

20 Years Of Engineering And Designing

Our philosophy is to create furniture that is as beautiful to look at as it is healthy to work at.

As inspired by our surroundings we strive to develop mechanisms that will endure your daily usage.

For more than 20 years we have been challenging complex height adjustment functions and have refined our mechanical functions to be durable and long-lasting.

Our Promise

ConSet Home embodies this everchanging, harsh and yet beautiful environment by designing the necessary and engineering the best.

Our goal is to make height adjustable desks that aid your posture and health while looking like a piece of furniture that would belong in your living spaces

We hope you will enjoy our furniture.

The Storage Desk

Our stylish and elegant desk fits in all living environments.

It is not only when you are working that a height adjustable desk can be a huge benefit.

Whether you are working, doing DIY projects or even putting on makeup at your table having the right height will improve your physical health.

Keep the desk tidy by hiding your small hobby projects, jewelry or home office materials in the large storage compartments.

The Storage Desk

Measurements: H 65cm W 116cm D 58cm

Materials: Water based UV Lacquer MDF top, solid wood frame and steel legs

Height travel: 65-118

Colors: White & Clay

Wall Desk

Measurements: H 65cm W 100cm D 60cm

Materials: Water based UV Lacquer on MDF top and steel legs

Height travel: 65cm - 118cm

Colors: White & Clay

Wall Desk

Finding a good space for a desk is not always easy. With The Wall Desk you will be able to place the desk everywhere while hiding it in plain sight. When the desk is not in use it easily folds down and saves space.

A desk for the whole family

The Wall Desk is the perfect desk you can place in the heart of you home. Use it for working from home, have your kids do their homework the possibilities are many.

MATERIALS

We design our products with a Scandinavian mindset for a global audience.

Functionality and simple lines define the style of ConSet HOME, and the materials make the furniture welcoming and a match for most homes.

Most of our furniture is available in a subtle warm clay or white lacquer.

Staying true to Scandinavian design, the top on The Split table is available with an oak top, creating a warm contrast to the metal frame.

The Split Desk

Split Desk

Measurements: H 65cm W 114cm D 60cm

Materials: Water based UV Lacquer or oak melamine on a steel frame

Height travel: 65cm - 118cm

Colors: White, Clay & Oak

The Split Desk

An elegant solution for the modern home office. The combination of a solid oak top with minimalistic legs in white or clay brings a touch of Scandinavian design into your house.

Underneath the top we have created storage space for whatever you might need at your desk.

Regardless if you need a desk for DIY, work or homework The Split Desk will add both function and a classic look wherever you place it in your home.

Made For The Whole Family

No matter who is using our desks and what they are used for, having a good seating or standing position is key for a healthy body.

Whether you are doing DIY projects, homework or work you will benefit from having a desk that can be adjusted to your height. Even the youngest ones in the family.

Quick tips

1. To find the best height make sure that the desk and your elbows touch in a relaxed position
2. To improve blood circulation, you should adjust your position every hour
3. Changing the height of the desk just a little bit will also help change your posture.

Your back will thank you

Not long ago height adjustable desks were only something you would find in an office. And they would also look that way.

We hope that we have shown you, that our desks can do more than go up and down. And that they belong just as much in your home than in an office.

With more people working from home the need for a height adjustable desk at home gets greater day by day.

Our desks are more than a compromise between function and practicality.

Our desks will support your health while matching your individual interior style.
